

ARBOUR

PRODUCT FACT SHEET

ARBOUR

DESIGN BY ANDREAS ENGESVIK & DANIEL RYBAKKEN, 2020

Embodying the concept that design should follow construction, Andreas Engesvik and Daniel Rybakken's Arbour is assembled from separate components that have been independently produced for optimal comfort, quality, and efficiency. This sofa was developed with an intention to create a durable sofa that would qualify for the Nordic Swan Ecolabel within the European market, and it features FSC-certified wood with water-based lacquer for the frame and EU-Ecolabelled upholsteries for the Eco version. The seat and cushions are made in carefully balanced proportions, with identical side cushions creating a sense of harmony and offering the opportunity for multiple comfortable sitting or lying positions, while the frame creates a strong yet elegant profile with an architectural quality. With its logical construction and uncluttered design language, Arbour fuses its distinctly Scandinavian aesthetics with high comfort and great durability. Available in two- and three-seater variants with different upholstery options.

HIGHLIGHTS

- Available in a 2- and 3 seater
- Elegant sofa with a clean and simple silhouette
- Offers optimal comfort, quality and efficiency
- Nordic Swan Ecolabel with EU-Ecolabelled textiles
- FSC-certified wooden frame
- Loose cushions and removable covers
- Available in a variety of textiles and frame colours and finishes
- The individual components can be replaced and recycled
- Suitable for a wide variety of private and public environments
- Qualified for contract use

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
